Pitch to win!

- Know your audience
- Focus on requesters goal
- Timing your pitch
- What to include
- Brevity wins
- Less is more
- Potential upside

The background of the slide is a dark blue field filled with a dense pattern of small, lighter blue dots. These dots are arranged in a way that creates a series of wavy, undulating lines across the entire image, giving it a sense of motion and depth.

Know your audience!

The Hero

Don't play a game, live it.

The Story

A fantasy world is leaking into reality! Take the role of the Hero in a newly established kingdom. Embark on expeditions, to collect resources, defeat powerful foes, and explore room changing landscapes. With the fate of the kingdom in your hands seek out clues to piece together the mystery behind worlds colliding.

Physically Embody the Hero

Use your physical body to dodge, swing, stab, and interact to level up your skills. By honing your skills you can play your way and choose how your Kingdom develops.

**Focus on requester's
goal**

Mixed Reality Passthrough

Pushing the boundaries of MR

Presence Platform Usage

- Insight SDK (for Passthrough, Scene Understanding, and Spatial Anchors)
- Interaction SDK (for Poke and Ray interactions)

The MR Expeditions are generated based on your floor plan and furniture, letting you get up and explore in a familiar safe place. Transforming your home into the fantasy locations being explored.

The game will scale to fit your room size and layout, for comfortable play in any room size.

- We generate encounters with enemies via small interactable nodes players touch, and enemies drop in from above. This allows the game to be played in a variety of room sizes.

Seamless transitions between VR and MR views, making it easy for players to swap between modes.

Timing your pitch

Don't forget the basics!

PETRICORE

Since 2015, Petricore has been creating strikingly innovative games for top emerging platforms. We create experiences that stand out and leave an everlasting impression on our players.

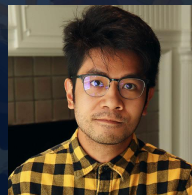

Key Team

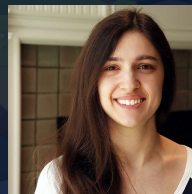

Ryan Canuel
CEO

8 years experience
40 Under 40 Winner, Playcrafting Rising Pixel Award,
AR Game Professor at Becker College, Petricore
consistent growth & profitability each year

Oliver Awat
Creative Lead & Programming

8 years experience
Ellen DeGeneres's Game of Games AR Game, Meta's
Horizon Worlds: Mob Quiz & Floodfill Dodgeball,
Snapchat: Lens Detective

Christina Andriano
Art Director & Project Manager

8 years experience
Meta's Horizon Worlds: Mob Quiz, Floodfill Dodgeball,
Snapchat: Lens Detective, Animal Planet/Burger King
AR Toy, All Petricore titles

James Spavold
Programming Lead

8 years experience
Sam & Max Meta Quest & Pico 4, PlaytoWin Mobile

Team & Milestones

Team & Workflow

- 8 developers
 - ◆ Business Lead & Development
 - ◆ Project Manager & Art Director
 - ◆ Technical Design Lead
 - ◆ Programmer
 - ◆ Artist
 - ◆ QA Tester
 - ◆ Social Media & Marketing Manager
 - ◆ Audio Engineer (freelance)
- Utilizing modular assets (for the VR Kingdom)
- Kitbashed assets (where applicable)
- Already Have Working vertical slice demo and will be releasing to gather feedback and build community.

Simplified Launch Timeline

- Month 0 - Launched Vertical Slice
 - ◆ Petricore has been developing Vertical Slice, and will release a playable demo to gather feedback & build community.
- Month 1 - Pre Production
 - ◆ Planning / Setup for full production
- Month 7 - Alpha
 - ◆ Iteration and remaining systems
- Month 11 - Beta
 - ◆ Feature Complete / Final Polish & Bug Fixing Focus
- Month 12 - Release Candidate
 - ◆ Full Content / Submission for Review
- Month 13 - Release
 - ◆ Certification & Deploy Game
 - ◆ Post-launch content / updates begins

The background of the slide is a dark blue field filled with a grid of small, lighter blue dots. A single, continuous, wavy line of a slightly different shade of blue meanders across the middle of the image, passing behind the text.

**Brevity wins every
time**

I am looking forward to hearing your ideas.
Feel free to contact me to clarify any questions.

Thank you.

The background of the slide is a dark blue/black field filled with a dense pattern of small, glowing purple dots. These dots are arranged in a way that creates a sense of depth and movement, resembling a series of concentric, wavy lines that flow from the bottom left towards the top right, creating a horizon-like effect.

Less is more

From **Play** to **Preparedness**, Theory Studios **Delivers**

Our award winning team at Theory Studios has been creating experiences for over a decade. Powered by Unreal, we've crossed industries, from entertainment to defense.

Potential Upside

Rinse & Repeat

A continuous funding flywheel turns micro-wins into macro-scale investments.

5+ figures

Government Support

\$1.0M

Local Scale-Up

\$3.0M

VC Investment

**THANK YOU &
Good Luck!**
